I. Course Description

Recent global history has been shaped profoundly by the forces of colonialism. From modern border disputes to geopolitical social divides to language dispersals, the effects of colonial efforts conducted over the last 500 years have greatly affected the state of contemporary society. Yet colonialism is not a recent development; it has been practiced in various forms throughout the world for millennia. Archaeology is thus uniquely situated to shed light on colonial practices and effects, with its multidisciplinary approach to studying the past. This course takes a comparative approach to culture contact and colonialism, drawing on perspectives from postcolonial theory and anthropology as well as archaeology. Using a variety of methodological approaches, we will consider the myriad ways in which identities were negotiated, differences were reproduced, alliances were forged, and subjugations were reinforced as a result of colonial encounters. We will consider a range of geographic case studies, with a primary focus on New World colonial encounters. We will draw on multiple perspectives and cultural lenses, including anthropological and indigenous literature and scholarship, ethnographic and popular film, photographs, artifacts, and the media. This course will comprise of lectures, critical film viewings, guest lectures, an optional museum site visit, and focused partner/small group discussions.

II. Learning Outcomes

Upon successful completion of this course, students should be able to:

• Have a comprehensive, yet nuanced, knowledge of colonial processes, including how people negotiate differences and how inequalities are reinforced.
• Understand and characterize ethical and political issues associated with archaeological and anthropological research in North America.
• Critically evaluate anthropological scholarship and Native perspectives concerning colonial processes and their legacies today.
III. Required Materials

• iClicker generation 1 or 2 (available at the campus bookstore)
• PDFs of course readings (posted to the course Gauchospace page)

IV. Assignments and Grading

Your final grade will be figured from the following components and scale, detailed below:

Grading Components:

• i>clicker points 10%
• Weekly Reading Responses 10%
• Midterm 25%
• Critical Response Paper 25%
• Final Exam 30%
• Total 100%

Lecture attendance is key to success in this course. i>clickers will be used in a variety of ways during lecture periods: to survey the class, to get opinions on current topics, to test reading and lecture comprehension, and to facilitate small group discussions. We may not necessarily use i>clicker in every class period, but you should bring your device and be prepared to use it at any time, including dates scheduled for guest lectures or film screenings. Please register your device at the start of the quarter on Gauchospace; you are responsible for ensuring that your i>clicker is registered and working properly. Please note that UCSB classrooms do not support the use of web-based i>clickers (i>clicker GO for smartphones and laptops) due to limited access points.

Critical discussions of readings comprise an important part of this course. You are responsible for submitting a Weekly Reading Response to Gauchospace, beginning Week 2. Your weekly reading response should consist of at least one comment, observation, or question about each of the articles we read per week. Your reading responses must be submitted to Gauchospace by noon before Monday’s lecture of each week, unless otherwise noted on the course schedule. No late responses will be accepted. These reflective/analytical responses will be used in i>clicker polls and to spark small group discussions. A guide to critical reading and analysis is available on Gauchospace.
The midterm and final exams will be based on the lectures, readings, and films and will consist of multiple choice and short answer/essay questions. Dates for the exams are listed in the course schedule; exams must be taken on the date indicated. Make-up exams are strongly discouraged and will only be given to students with well-documented reasons. Due to university policies, there will be no make-up options for the final exam, so please plan accordingly and contact me as far in advance as possible for any potential extenuating circumstances.

You will be required to write a critical response paper based on your comparative analysis of course readings, films, and/or the Santa Barbara Natural History Museum site visit (site visit details provided in class). Question prompts will be provided, of which you will choose one for your response. The paper should be 5 double-spaced pages and will be due in hard copy. The paper should incorporate course content as well as outside research. Papers will be graded based on content, clarity, and grammar. Late papers will be marked down a letter grade every day they are late. Please see me in advance if you anticipate any issues turning the paper in by the due date for a valid/documentated reason.

Extra credit opportunities will be announced throughout the quarter.

Grades will be made available throughout the quarter on Gaucospace.

ACADEMIC CONDUCT AND INTEGRITY

It is expected that students attending the University of California understand and subscribe to the ideal of academic integrity, and are willing to bear individual responsibility for their work. Any work (written or otherwise) submitted to fulfill an academic requirement must represent a student’s original work. Any act of academic dishonesty, such as cheating or plagiarism, will subject a person to University disciplinary action. Cheating includes, but is not limited to, looking at another student’s examination, referring to unauthorized notes during an exam, providing answers, having another person take an exam for you, etc. Representing the words, ideas, or concepts of another person without appropriate attribution is plagiarism. Whenever another person’s written work is utilized, whether it be a single phrase or longer, quotation marks must be used and sources cited. Paraphrasing another’s work, i.e., borrowing the ideas or concepts and putting them into one’s “own” words, must also be acknowledged. Plagiarism is not limited to books or articles, but includes web-based materials, including Wikipedia. (https://judicialaffairs.sa.ucsb.edu/AcademicIntegrity.aspx)

STUDENTS WITH DISABILITIES

Providing academic accommodations to students with disabilities is a shared responsibility of the campus. Students with disabilities are responsible for ensuring that the Disabled Students Program (DSP) is aware of their disabilities and for providing DSP with appropriate documentation. DSP is located at 2120 Student Resource Building and serves as the campus liaison regarding issues and regulations related to students with disabilities. The DSP staff works in an advisory capacity with a variety of campus departments to ensure that equal access is provided to all disabled students. (http://dsp.sa.ucsb.edu/)
**V. Gauchospace and Email Policies**

You can access course materials online on gauchospace (http://gauchospace.ucsb.edu), including the course syllabus, PDFs of course readings, course powerpoints, exam study guides, critical response paper prompt, handouts, weekly reading response submission portals, etc. It is your responsibility to check your email and Gauchospace regularly for course updates.

Feel free to contact me via email with general questions about the course. However, due to the high volume of emails I receive, please include the following details with your email so that I do not inadvertently delete it:

- **Put “ANTH 197” in the subject line**
- **Include a salutation as well as a signature that includes your full name**

Please allow up to 24-48 hours for me to answer your email, and keep in mind that I may not have access to my email at night or on weekends. If you have detailed questions, especially with regards to exams, the critical response paper, etc., please come to my office hours or make an appointment to see me, as I will not be able to provide lengthy responses over email. Please note that I will not answer questions over email pertaining to the exams/paper less than 24 hours before the due date.

I strongly recommend that you email me from your UCSB umail account or directly from Gauchospace, as I have had issues with other email addresses (e.g., Yahoo, Hotmail) ending up in my spam folder. If you do not receive an email response from me within the 24-48 hour timeframe, please follow up with me for that reason!

**VI. General Course Policies**

You are expected to arrive on time and stay in class during the entire class period. The practice of reading outside material, talking to others, sleeping, texting, viewing media on smartphones/tablets, using headphones in class, etc. is not permitted. These actions are distracting to your instructor and others in class. All cell phone ringers must be turned off during class. Laptops can be used during class only if they are used to take notes.

If you are having personal issues that may affect your academic performance, please come talk to me **in advance** so that I can work things out with you in any way I can. Please email me, come to my office hours, or schedule an appointment to meet. I always strive to be accessible, approachable, and understanding. I am happy to help in any way that I can!

**VII. Course Schedule**

The course schedule below lists weekly topics, assigned readings, guest lectures/film dates, and exam/paper due dates. You can expect to follow this schedule but please note that some items are subject to change. Any changes to the course schedule will be announced in lecture, emailed, and/or posted to Gauchospace.
